

AI Empire Studio™

30 Content Ideas Generator™ — Free Edition

This guide gives you a repeatable system to generate content ideas anytime you feel stuck. You are not memorizing ideas — you are learning how to create them on demand.

How to Use This Generator

Follow the steps in order. One idea can become multiple posts. Use this anytime you run out of ideas.

Step 1: Master Prompt

Copy into ChatGPT:

Give me 30 content ideas for a beginner in the [YOUR NICHE] that:

- solve a relatable problem
- are easy to create
- work for short-form video or text posts
- focus on clarity, not creativity

Format each idea as: Hook → Angle → Outcome.

Step 2: Faceless Modifier

Add this line if you don't want to be on camera:

“Make all ideas suitable for faceless content using text, B-roll, or stock footage.”

Step 3: Expand One Idea

Use this on any idea you like:

“Turn this idea into 5 separate posts using different hooks, angles, or examples.”

Starter Ideas (If You Want to Post Today)

- A mistake beginners make in your niche
- A simple habit that creates momentum
- Something you wish you knew earlier
- A myth that keeps people stuck
- A small win that compounds over time

What's Next

This generator gives you ideas. AI Empire Quickstart™ gives you the full system — content engines, hooks, scripts, captions, posting rhythm, and monetization.
